*I have done some reflections for you. I don't think they are as good as yours and they are very short and sweet, but I hope they say good things about the way you have grown into being a teacher in our team. You have really done a superlative job at BPC and you have been so very generous in the way you have worked with the kids and helped me out on numerous occasions. I think you are well on the way to being an excellent teacher. Thank-you sincerely for being my teaching partner this year. I really will miss you being in our space AND you have been very patient with your dodgy old mentor teacher. I will give them to you tomorrow and you have to tell me how you want them – hard copy or just emailed to you.*

*Karen*
